

TEQBALL®
ARE YOU TEQ?

WHAT IS TEQBALL?

The soul of Teqball is the table; a new and revolutionary piece of sports equipment which took over two years' testing and research to eventually develop its final innovative and sophisticated shape. The net is solid plexi and thus the ball bounces back from it, so the concept of uninterrupted games is no longer a dream. The structure of Teqball table, aligned with the rules, does not allow luck or chance to interfere with the game: players can only rely on their skills and abilities.

Teqball is a new football-based sport, which is perfectly suitable for professional footballers as well as amateur enthusiasts whose ambition is to develop their technical skills, concentration and stamina. However, it is not only your skills you can improve on this specially-curved board. All you need is an opponent at the other end of the Teqball table and the game can begin! If you can juggle a ball three times, you can excel at teqball as well.

Teqball is not about luck; the best players always win.

Teqball is the purest type of football, since there is no physical contact between the players, and therefore injuries resulting from impacts or rough tackling can never take place in the game or during practice. Moreover, the players cannot touch the table either, according to the official rules, which further reduces the risk of injury.

"Teqball is not football's rival but rather it's complement. Teqball enhances players' confidence, perfects their passing techniques and develops decision making skills, not to mention the so-called 'first touch' moves that are more than essential in modern-day football."

RULES

Teqball can be played with any soccer balls used in football; however, size 5 is official and recommended. Teqball can certainly be played by rules created by the players, but the official rules of the game are very simple:

- 🔗 A teqball match consists of a best-of-three sets game.
- 🔗 Each set is won when a score of 20 points has been achieved by one player, a change of serving being mandatory after each fourth point.
- 🔗 Every player has two attempts to complete a successful service. In serving, the ball must always bounce behind the service line (it is also a successful service if the line is touched).
- 🔗 It is forbidden to touch the ball twice consecutively with the same body part.
- 🔗 The players may return the ball using any body part except their hands, by touching it a maximum of three times.
- 🔗 In doubles, the team members must pass the ball at least once to each other before returning it to the opponent's side of the table by touching it a maximum of three times.
- 🔗 If the ball bounces on the edge of the table and changes direction, it is considered an 'edge ball.' In this case, the rally shall be repeated (this only applies if no-one touches the ball before it bounces on the ground).
- 🔗 While playing, neither the equipment nor the opponent shall be touched.
- 🔗 For more detailed rules visit: www.teqball.com.

These rules make this sport tremendously spectacular and suitable for even professional football teams for training purposes. Teqball can be played by 2 players (singles game), by 3 players (Canadian doubles), by 4 players (doubles game) or even by several more players similar to the 'Round-the-table' game in Ping Pong. On our Teqball Smart tables individual games and training sessions can be conducted.

MULTIFUNCTIONAL SPORTS EQUIPMENT

QATCH

In this game the players stand at either end of the table and throw the ball back and forth to each other in an intense fashion. Passing the ball back must be done from where they have previously caught it. The ball must bounce once on the opponent's side of the table after which it must be returned within 3 seconds. A set consists of 12 points, and two sets must be won in order to win a match. Qatch is that simple.

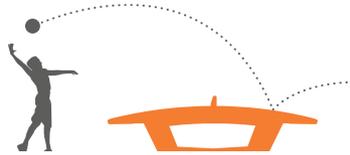

Several personal trainers have already tested this game and the results are fascinating; players use their entire muscle system when playing qatch. Moreover, a number of handball and basketball teams have considered integrating this game in their junior training system. Qatch can be played by anyone aged 6-99 for pleasure and/or intensive workout purposes. We are absolutely convinced that all family members would soon discover the pleasures of sport on the Teqball table.

TEQVOLLEY

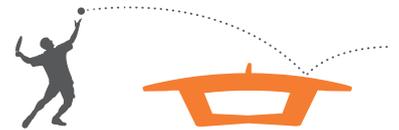

For this game all you need are 4 players and a beach volleyball. The rules are very easy: the players stand at either end of the table and hit the ball back and forth to each other. The teams can use a maximum of 3 touches (it can be 1 or 2 as well) for the return and the ball must bounce once on the opponent's side of the table after which it must be returned. The edge ball here should be repeated, just like in teqball. Jumping to spike is only allowed from behind the serving base line. A set ends after 12 points, and two sets must be won in order to win a match. Teqvolley is that simple. It can be played by anyone aged 6-99 as a fun game or as an intensive workout.

TEQPONG/ TEQTENNIS

To play these games You need a beach tennis or a ping pong set. The main rule must be observed at all times: you cannot touch the equipment. The rest of the rules of the game are the same as in qatch: one set is 12 points, and a match is decided by two winning sets. This game is naturally about the pleasures of sport, and it brilliantly develops ball handling and concentration skills as well, since the ball bounces in a different way as the result of the special curve of the table.

AMBASSADORS

SIMÃO SABROSA

Portuguese Teqball Ambassador

"I can personally recommend to you as a former football player. It is the best choice for training the youngest generation!"

WILLIAM GALLAS

Global Teqball Ambassador

"Teqball is a perfect sport, because when you play this game, you have to be very focused. It helps the young players to develop quality ball control!"

CHRISTIAN KAREMBEU

Global Teqball Ambassador

"Teqball can promote the popularity of our beloved sport and I am confident to say that it improves the efficiency of the trainings."

ABOUT US

We believe that sometimes less is more. Using the simplest idea of a curved table, we created a sport which can be played anytime & anywhere, indoor & outdoor, regardless of age and gender.

Creators are often dreamers and we dream a future, in which **Teqball will be an Olympic Sport.**

TEQBALL®

FOUNDERS

GABOR BORSANYI

Gabor is the creative force of the Teq team. He is a former professional football player, who retired at a young age. Sport has always been his passion and he came up with the idea of teqball.

GYURI GATTYAN

Gyuri is an international businessman, who is responsible for the Teq business strategy. He is the founder and owner of Docler Holding, but he is also known for being a producer and the benefactor of several charities.

VIKTOR HUSZAR

Viktor is the scientific mind in the Teq team. He is a football-loving computer scientist, who put the engineering resources behind the Teqball & Teqbox project. He is the president of the Football Club of the Budapest University of Technology & Economics.

INTERNATIONAL TEQBALL FEDERATION

FITEQ®

Fédération Internationale
de Teqball

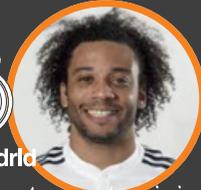

The International Federation of Teqball - FITEQ - based in Switzerland, has been established to unite the international teqball community, a sport incorporating a highly engineered Teqball table over which a football is played. The FITEQ's objective is to promote the development of teqball globally, assisting in establishing national federations, and to unify the rules of teqball. The federation will organise, promote and sanction international teqball events and competitions including Teqball World Championships as well as establishing and maintain world ranking statistics.
